BRICKS 4 KIDZ

KG to Grade 3

(in English)

Build and explore crazy contraptions that really work your brain. Students use LEGO® Bricks, axels, pulleys, gears and motors to create fun and interactive models. Compete with friends in a rousing game of Battle Tops or Foosball. Put your hand-eye coordination to the test with the Ping Pong Popper model. Experiment with the Mini Fig Mover to see how this model will send your mini fig for a ride. All this and more are waiting to be discovered as students learn and play with Cranium Contraptions!

STEAM EXPLORATIONS

Grades 2 to 5
(in English)

Science, Technology, Engineering, Art, and Math...S.T.E.A.M education combines all of these major themes to get kids thinking and learning on all levels! Learn about different scientific disciplines as you learn to think like an engineer, investigate like a scientist, and try your hand at some cool technology (3D printing, laser cutting, electronics). Figure out fun math tricks that will amaze your friends, experiment with making things move, discover the amazing world of robotics and programming and of course use your own creative and artistic touch to personalize your projects. Projects will depend on the interests of the group.

KIDS' MUSIC ROUND

Preschool to Kindergarten

(in English)

It is during these early years a child's musical talent and love of music is being fostered. In this class, musical concepts will be explored through song, dance, dramatic play, creative movement, improvisation and assorted rhythm instruments. Because many children are not ready for the formal structure of a private lesson at this age, this group class is a great first step toward private study. Home materials: CD and download link for the MP3s and songbook
